

## Exhibit 300: Capital Asset Summary

### Part I: Summary Information And Justification (All Capital Assets)

#### Section A: Overview & Summary Information

**Date Investment First Submitted:** 2009-06-30  
**Date of Last Change to Activities:**  
**Investment Auto Submission Date:** 2012-02-23  
**Date of Last Investment Detail Update:** 2012-02-23  
**Date of Last Exhibit 300A Update:** 2012-07-23  
**Date of Last Revision:** 2012-03-29

**Agency:** 009 - Department of Health and Human Services  
Medicaid Services

**Bureau:** 38 - Centers for Medicare and

**Investment Part Code:** 01

**Investment Category:** 00 - Agency Investments

**1. Name of this Investment:** CMS Drug Claims (DDPS)

**2. Unique Investment Identifier (Ull):** 009-000004260

#### Section B: Investment Detail

- 1. Provide a brief summary of the investment, including a brief description of the related benefit to the mission delivery and management support areas, and the primary beneficiary(ies) of the investment. Include an explanation of any dependencies between this investment and other investments.**

This investment funds the ongoing maintenance and operations for the Drug Data Processing System (DDPS). The primary purpose of DDPS is to collect, maintain, and process information on all Medicare drug events for people with Medicare who have enrolled into a Medicare Part D plan. The system helps CMS to determine appropriate payment of covered drugs. DDPS will provide for processing, storing, and maintaining drug transaction data in a large-scale database, while putting data into data marts to support payment analysis. Medicare obtains a specific set of Part D claims data consisting of 30 data elements from all drug claims. The Prescription Drug Event (PDE) records are submitted electronically to CMS on a monthly basis, validated, and stored in a Drug Claims Data repository. The data are further utilized in the payment reconciliation process which compares actual expenditures to prospective payments made to plans and corrects any overages or underpayments to plans. This investment supports HHS Strategic Objective 1.3: Improve health care quality, safety, cost, and value. Beginning in 2011, Part D Sponsors will provide the discounts for applicable drugs in the coverage gap at point-of-sale. CMS will coordinate the collection of discount payments from manufacturers and payment to Part D sponsors that provided the discount applicable beneficiaries through a contractor. This coordinator will involve a standard process of paying Part D sponsors based on new information submitted to CMS on

PDE data. The investment secures the resources needed to operate and maintain these systems within FISMA compliance and within CMS requirements. Resources are allocated to maintain and update, test and monitor the operation of the systems that support the Drug Data Payment System, as well as provide related audit and compliance support, program management support and customer service to relevant stakeholders.

**2. How does this investment close in part or in whole any identified performance gap in support of the mission delivery and management support areas? Include an assessment of the program impact if this investment isn't fully funded.**

CMS has a critical reliance on support contractors to carry out its mission of providing health insurance coverage for millions of American citizens. Support contractors provide key IT resources and skills to perform software engineering and implementation activities necessary to sustain system operations and maintenance to support CMS' program operations. In addition, support contractors help fill gaps in system operations management and FISMA compliance oversight responsibilities that are not able to be accommodated with limited (and dwindling) Federal staff resources. This investment funds the support contractor resources and systems security compliance activities necessary to manage the execution and oversight of mission critical Medicare systems operations and maintenance functions. Failure to fully fund this investment will put mission critical CMS systems at high risk in several areas, including potentially defaulting on contract obligations, as well as the inability to maintain system certification and authority to operate in compliance with FISMA requirements.

**3. Provide a list of this investment's accomplishments in the prior year (PY), including projects or useful components/project segments completed, new functionality added, or operational efficiency achieved.**

Operated within FISMA compliance and CMS requirements while supporting the business functions for DDPS. Implemented Coverage Gap Discount program changes for Affordable Care Act.

**4. Provide a list of planned accomplishments for current year (CY) and budget year (BY).**

Operate within FISMA compliance and CMS requirements while supporting the business functions for DDPS. Maintain the DDPS and PRS applications.

**5. Provide the date of the Charter establishing the required Integrated Program Team (IPT) for this investment. An IPT must always include, but is not limited to: a qualified fully-dedicated IT program manager, a contract specialist, an information technology specialist, a security specialist and a business process owner before OMB will approve this program investment budget. IT Program Manager, Business Process Owner and Contract Specialist must be Government Employees.**

2005-03-31

## Section C: Summary of Funding (Budget Authority for Capital Assets)

1.

Table I.C.1 Summary of Funding

	PY-1 & Prior	PY 2011	CY 2012	BY 2013
Planning Costs:	\$0.0	\$0.0	\$0.0	\$0.0
DME (Excluding Planning) Costs:	\$0.0	\$0.0	\$0.0	\$0.0
DME (Including Planning) Govt. FTEs:	\$0.0	\$0.0	\$0.0	\$0.0
Sub-Total DME (Including Govt. FTE):	0	0	0	0
O & M Costs:	\$107.7	\$12.7	\$19.5	\$19.0
O & M Govt. FTEs:	\$2.9	\$1.1	\$1.1	\$1.1
Sub-Total O & M Costs (Including Govt. FTE):	\$110.6	\$13.8	\$20.6	\$20.1
Total Cost (Including Govt. FTE):	\$110.6	\$13.8	\$20.6	\$20.1
Total Govt. FTE costs:	\$2.9	\$1.1	\$1.1	\$1.1
# of FTE rep by costs:	24	8	9	9
Total change from prior year final President's Budget (\$)		\$-3.2	\$3.3	
Total change from prior year final President's Budget (%)		-18.52%	18.79%	

**2. If the funding levels have changed from the FY 2012 President's Budget request for PY or CY, briefly explain those changes:**

This investment has gone through the CPIC process. Any difference in funding levels from the President's Budget reflect changes in Agency priorities.

## Section D: Acquisition/Contract Strategy (All Capital Assets)

Table I.D.1 Contracts and Acquisition Strategy

Contract Type	EVM Required	Contracting Agency ID	Procurement Instrument Identifier (PIID)	Indefinite Delivery Vehicle (IDV) Reference ID	IDV Agency ID	Solicitation ID	Ultimate Contract Value (\$M)	Type	PBSA ?	Effective Date	Actual or Expected End Date
Awarded	7530	<a href="#">HHSM500T0001</a>	HHSM500200700021I	7530							
Awarded	7530	<a href="#">HHSM500200900057G</a>	GS35F0462V	4730							

2. If earned value is not required or will not be a contract requirement for any of the contracts or task orders above, explain why:

Exhibit 300B: Performance Measurement Report

Section A: General Information

Date of Last Change to Activities:

Section B: Project Execution Data

Table II.B.1 Projects					
Project ID	Project Name	Project Description	Project Start Date	Project Completion Date	Project Lifecycle Cost (\$M)
NONE					

Activity Summary								
Roll-up of Information Provided in Lowest Level Child Activities								
Project ID	Name	Total Cost of Project Activities (\$M)	End Point Schedule Variance (in days)	End Point Schedule Variance (%)	Cost Variance (\$M )	Cost Variance (%)	Total Planned Cost (\$M)	Count of Activities
NONE								

Key Deliverables								
Project Name	Activity Name	Description	Planned Completion Date	Projected Completion Date	Actual Completion Date	Duration (in days)	Schedule Variance (in days )	Schedule Variance (%)
NONE								

## Section C: Operational Data

Table II.C.1 Performance Metrics

Metric Description	Unit of Measure	FEA Performance Measurement Category Mapping	Measurement Condition	Baseline	Target for PY	Actual for PY	Target for CY	Reporting Frequency
Percentage of users satisfied with system functions (features, capabilities, outputs, reliability, etc) and purpose fulfillment based on results of User Satisfaction Survey	Percentage	Customer Results - Service Quality	Over target	75.000000	75.000000		75.000000	Quarterly
Percentage of financial accounting internal control report files (payments, premiums, bills, collections) successfully generated on-time according to production schedules	Percentage	Mission and Business Results - Management of Government Resources	Over target	90.000000	90.000000		95.000000	Monthly
Percent of priority "Critical" and "High" system problem incidents resolved within SLA targets	Percentage	Process and Activities - Quality	Over target	90.000000	90.000000		90.000000	Monthly
Percentage of inbound and outbound transaction files successfully processed according to production schedules	Percentage	Process and Activities - Cycle Time and Timeliness	Over target	90.000000	90.000000		90.000000	Monthly
Percentage of business change requests included in release baseline successfully implemented by planned release date	Percentage	Customer Results - Customer Benefit	Over target	90.000000	90.000000		90.000000	Monthly

Table II.C.1 Performance Metrics								
Metric Description	Unit of Measure	FEA Performance Measurement Category Mapping	Measurement Condition	Baseline	Target for PY	Actual for PY	Target for CY	Reporting Frequency
Completion of SSP, RA, CP/DR Plan, CP/DR Test updates, and Annual Controls Testing by established deadlines	Number	Process and Activities - Security and Privacy	Over target	10.000000	10.000000		10.000000	Quarterly
